Checklist For Scrum Master

1) Sprint backlog selected based on Product owner's thinking?

Yes, the backlog was selected based on the products owners' thinking/game necessities.

2) Is the sprint backlog a manageable/feasible size (in terms of efforts)

The sprint backlog is managable, as long as the correct hours are put into the project.

3) Anything from this meeting or team interaction creates a question for the customer?

   Yes, ask the team leader to schedule a meeting with the customer.

4) Are the goals and the owners of the task clear?

The goals were clear, but the roles per team member were not. Next time, our team will do better by assigning each member a functionality or role.

5) Here are some characteristics of good team ethics and dynamics.
   a. Clear goals.
   b. Concentration and focus on the job at hand.
   c. Personal control.
   d. High Accountability.

6) Remind the team what is the next step from here.
   Our next step will be to implement all our separate parts together and prepare for sprint 2.
7) Conduct a brief mid-sprint checkup to re-review acceptance criteria.

   MID-Sprint Review:
   - *Carlous was not here for the beginning of the sprint due to travelling issues, so our team had to assign him roles mid-sprint*
   - *Team collectively working together to complete their portion of the sprint; at a good place to take weekend off to study for exam 1*

Checklist for Scrum Master (Meetings)
For each sprint

March 17, 2026

1) For any meeting, update the meeting minutes. Will be submitted at the end of the sprint.

a. Include the type of meeting

Team meeting – Sophia, Alyssa, and Clayton PRESENT (Carlous stuck in Spain)

b. Meeting time and date

March 17, 2026, from 3:15pm - 4pm

c. What questions were discussed

Discussion of the Sprint #1 Planning Document

d. Which team members provided a solution and state the solution briefly

Alyssa – contributed end goals of the first spring

Clayton/Sophia/Alyssa - timing and jobs

2) Setting up and coordinating online meetings if needed.

Decided will check in at end of the week and if needed will have another meeting early next week.

3) Sending emails for scheduling team meetings. Snapshots of the sent emails for scheduling.

4) Sending emails to the product owner for meetings and updates. Snapshots of the sent emails for scheduling.

The "owner" is the team in this situation

5) Remind the customer to have a meeting the next day. (don't worry about the time)

The "owner" is the team in this situation

6) Is more description needed for any task included in the Sprint Backlog?

a. Include brief (2-3 lines) details of the discussion and if the sprint backlog was Changed.

Alyssa had presented some ideas for the end goals of Sprint 1. Clayton and Sophia agreed that those goals were manageable. The three of us worked as a team to assign roles (frontend, backend, database).

March 18, 2026

1) For any meeting, update the meeting minutes. Will be submitted at the end of the sprint.

a. Include the type of meeting

In class meeting – Sophia, Alyssa, and Clayton PRESENT (Carlous stuck in Spain)

b. Meeting time and date

March 18, 2026

c. What questions were discussed

Everyone's assignments for sprint 1

d. Which team members provided a solution and state the solution briefly

There was confusion on how to implement a database for the Pitch Deck

- Sophia suggested that a database was not needed, everything could be held in data structures

- Alyssa confirmed

2) Setting up and coordinating online meetings if needed.

3) Sending emails for scheduling team meetings. Snapshots of the sent emails for scheduling.

4) Sending emails to the product owner for meetings and updates. Snapshots of the sent emails for scheduling.

We are "product owner." Our team holds each other accountable.

5) Remind the customer to have a meeting the next day. (don't worry about the time)

6) Is more description needed for any task included in the Sprint Backlog?

a. Include brief (2-3 lines) details of the discussion and if the sprint backlog was Changed.

Our team's original team backlog had front-end, back-end, and database. In our meeting we discussed how a database is not needed because we are not having users "create" accounts. So, the sprint back log was changed to remove this.

Dr.Gupta also said that our backlog was too broad and that the individual assignments needed to be more specific instead of just front-end. This was then changed by Alyssa.

March 20, 2026

1) For any meeting, update the meeting minutes. Will be submitted at the end of the sprint.

a. Include the type of meeting

In class meeting – Sophia, Alyssa, and Carlous PRESENT; Clayton MIA

b. Meeting time and date

March 20, 2026

c. What questions were discussed

Discussed everyone's progression/next steps

d. Which team members provided a solution and state the solution briefly

Sophia and Alyssa working closely on the "bigger" task in the sprint

Carlous getting assigned a different task

2) Setting up and coordinating online meetings if needed.

3) Sending emails for scheduling team meetings. Snapshots of the sent emails for scheduling.

4) Sending emails to the product owner for meetings and updates. Snapshots of the sent emails for scheduling.

We are "product owner." Our team holds each other accountable.

5) Remind the customer to have a meeting the next day. (don't worry about the time)

6) Is more description needed for any task included in the Sprint Backlog?

a. Include brief (2-3 lines) details of the discussion and if the sprint backlog was

Changed.

This meeting was just to discuss how everyone was doing and if they were in good shape to pause the sprint for the weekend, so they would have time to study for the exam on Monday. Carlous was just getting up-to-date because of his problems coming back from spring break.

March 25, 2026

1) For any meeting, update the meeting minutes. Will be submitted at the end of the sprint.

a. Include the type of meeting

Class meeting – Sophia, Alyssa, Carlous PRESENT; Clayton MIA

b. Meeting time and date

March 25, 2026

c. What questions were discussed

Discussed everyone's progression/what needed to be done for presenting on Friday

d. Which team members provided a solution and state the solution briefly

Carlous – still working on his part

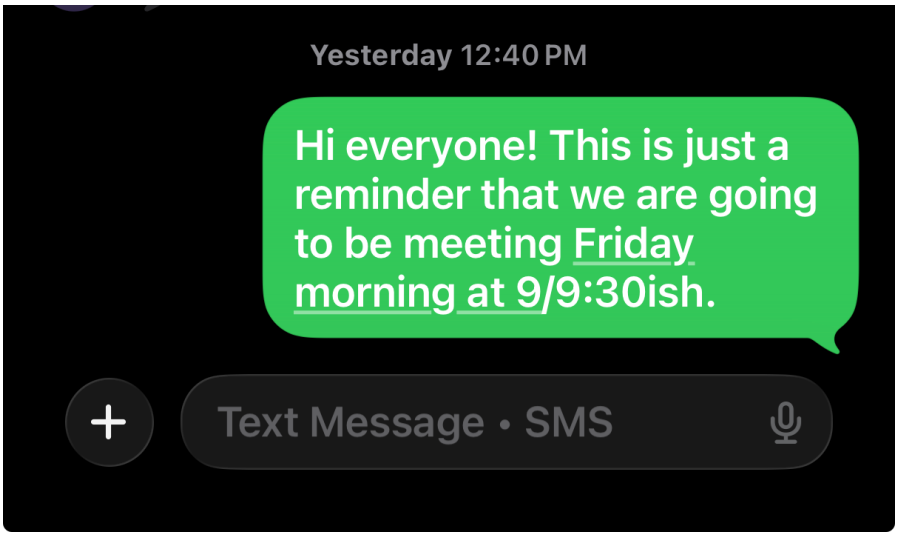
Claton – TBD

Alyssa – finished her part; wanted Sophia to create own API so the deck was not running before the game started

2) Setting up and coordinating online meetings if needed.

Yes, we wanted to meet before presenting on Friday. The meeting time is Friday morning at 9 a.m.

3) Sending emails for scheduling team meetings. Snapshots of the sent emails for scheduling.



4) Sending emails to the product owner for meetings and updates. Snapshots of the sent emails for scheduling.

We are "product owner." Our team holds each other accountable.

5) Remind the customer to have a meeting the next day. (don't worry about the time)

6) Is more description needed for any task included in the Sprint Backlog?

a. Include brief (2-3 lines) details of the discussion and if the sprint backlog was Changed.

During this meeting we discussed the final details of what needed to be done for sprint 1. We also decided we wanted to go over everything before presenting on Friday, so we decided to hold a meeting on Friday morning.

March 27, 2026

1) For any meeting, update the meeting minutes. Will be submitted at the end of the sprint.

a. Include the type of meeting

Final Discussion - Sophia and Clayton PRESENT, Alyssa and Carlous ABSENT

b. Meeting time and date

March 27, 2026 – 9 a.m. - 9:45 a.m.

c. What questions were discussed

Looking over Clayton's part of the project before presenting

d. Which team members provided a solution and state the solution briefly

Sophia and Clayton were in agreed that his portion was done

2) Setting up and coordinating online meetings if needed.

3) Sending emails for scheduling team meetings. Snapshots of the sent emails for scheduling.

4) Sending emails to the product owner for meetings and updates. Snapshots of the sent emails for scheduling.

We are "product owner." Our team holds each other accountable.

5) Remind the customer to have a meeting the next day. (don't worry about the time)

6) Is more description needed for any task included in the Sprint Backlog?

a. Include brief (2-3 lines) details of the discussion and if the sprint backlog was

Changed.

This was just a final meeting before our team presented what we did for sprint 1 to the class. Since Clayton had missed so many meetings, our team felt it was necessary to meet.
